

e-colour+ 2" Core Edge Marked Rolls

e-colour+, Rosco's comprehensive system of color filters for film and television production, offers a range of rolls available on 2" cores with edge marking. Every foot of the roll is marked with imperial measurement, down to the last foot for easy cutting and tracking. Rosco has developed a new part code to differentiate the 2" cores with edge marked rolls and below is a comprehensive list of all e-colour+ filters available. All rolls measure 48" x 25' (1.22m x 7.62m).
